RTI F.0 Integrated Process Team

21 August 1996

RTI F.0 Development Strategy

- **Integrated Process Team (IPT) formed to support RTI F.0 development, testing, and support functions**

- **Release RTI F.0 first as C++ executable for Sun platform**

  - **Other platforms and languages to be supported through collaborative efforts with AMG programs with specific requirements and expertise - 'RTI Friends'**
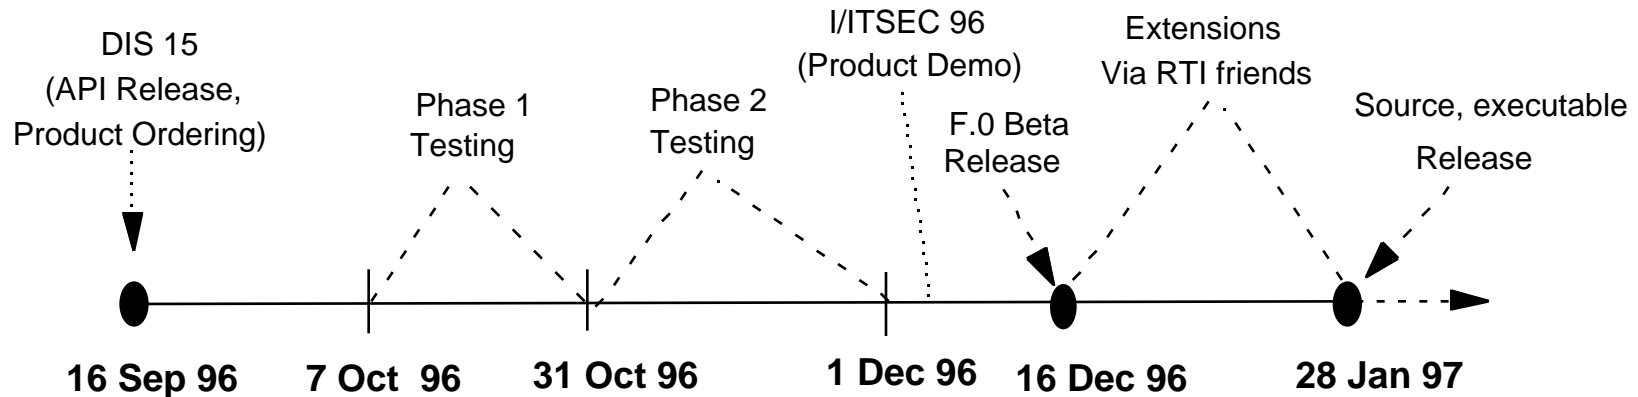

RTI F.0 Integrated Process Team

- RTI F.0 development functions divided into three parts:
  - RTI F.0 Software Development - Dr. Richard Weatherly, MITRE (v1.0 overall lead: Jim Calvin MIT/LL) - development of familiarization software
  - IEC Testbed - Russ Richardson, SAIC - RTI testing as part of development
  - COTS Team - Rich Briggs, VTC - help desk, documentation, programming examples, distribution, etc.
  - DMSO POC - Tom S. Stark

RTI F.0 Major Milestones

DIS 15
(API Release,
Product Ordering)

Phase 1
Testing

Phase 2
Testing

I/ITSEC 96
(Product Demo)

F.0 Beta
Release

Extensions
Via RTI friends

Source, executable
Release

16 Sep 96   7 Oct 96   31 Oct 96   1 Dec 96   16 Dec 96   28 Jan 97

- **API released to community (9/16/96)**

- **RTI F.0 ordering procedure introduced at DIS 15 (9/16-20/96)**

- **Phase 1 testing - Testing with initial (internal) release of RTI F.0 (10/7-31/96)**

- **Phase 2 testing - Testing with sample federates (Eagle, ModSAF) (10/31/96-12/1/96)**

- **Product demo at I/ITSEC 96 (including installation, programming examples, documentation, etc.) (12/2-6/96)**

- **Beta release of RTI F.0 (Sun C++ executable) to community (12/16/96)**

- **RTI 'Extensions' to selected platforms/OS and languages by RTI Friends (12/16/96-1/28/97)**

- **Source code, executable code for other platforms/OS released (1/28/97)**
